

CPRE AGILE REQUIREMENTS ENGINEERING WORKSHOP

Upcoming Dates

15.04.2021 - 16.04.2021, Zurich
27.09.2021 - 28.09.2021, Zurich

Course Descriptions

Requirements Engineering principles are comprehensively discussed and are contextualised to be valid for any system: embedded systems, safety-critical systems and traditional information systems. At the same time, there will also be scope to look at individual cases brought forth by the participants and apply the learned principles to those particularities.

This workshop is not based on any specific software development approach or process, and is intended to be applicable across domains.
