

CPRE ELICITATION

Upcoming Dates

22.02.2021 - 24.02.2021, Zurich

21.06.2021 - 23.06.2021, Zurich

Course Descriptions

Requirements Engineering principles in direct reference to elicitation and consolidation are comprehensively discussed and are contextualised to be valid for any system: embedded systems, safety-critical systems and traditional information systems. At the same time, there will also be scope to look at individual cases brought forth by the participants and apply the learned principles to those particularities.

This workshop is not based on any specific software development approach or process, and is intended to be applicable across domains.

Learning Outcomes

Understand and apply the skills of a Requirements Engineer.

Apply a framework for structuring and managing requirements elicitation and conflict resolution.

Apply techniques to identify, classify and manage documents, requirements and

stakeholders.
