MIKE JOHNSON
CO-FOUNDER & TRAINER

A MESSAGE FROM MIKE.

*"Progress is impossible without change,
and those who cannot change their
minds cannot change anything."*

- George Bernard Shaw

Welcome to our Q2 2022 newsletter!

Do you notice anything different?

The new look? The new title? Yes! As some of you may know we have been busy behind the scenes at SE-T making some small changes; streamlining our processes, spring cleaning our work practices, and clearing the cobwebs from the corners of our minds so we can emerge fresh and renewed in time for summer.

And one big change is giving our quarterly newsletter a name.

After a team brainstorm we chose "ON:SET". Why? Because this newsletter is 'ON' all things 'SE-T' and because we liked how it also contains the word 'onset', meaning: the beginning of something, which struck a chord with us after our internal "spruce up".

And this 'beginning' feels continual - with the addition of some exciting new courses and webinars and our persistent pursuit to develop future SE-T offerings we feel like we are keeping things fresh for the future.

We are making changes to progress, as George Bernard Shaw so eloquently puts it - "Progress is impossible without change, and those who cannot change their minds cannot change anything."

We hope you enjoy the very first edition of ON:SET!

Cheers,
Mike

Connect with me 

Join Mike on any of his upcoming courses:

26 - 30 September	SE Advanced
05 - 07 October	SE Foundations
06 October	Technical Problem Solving
27 - 28 October	SE Management

New Approaches

We have made a few changes with regard to how we communicate our webinars and courses to you. We hope these changes will simplify the process of registering for courses and webinars and free up your inbox a little!

We want you to trust that when you receive an email from us it is one worth reading.

So, from now on you will receive one monthly email outlining all our upcoming courses for the next few months, rather than individual course emails.

And you will also receive one monthly email outlining our upcoming webinars. Registration for these will be via LinkedIn (events) only. And you will receive one email confirmation once you have registered.

Reminders and updates on our courses and webinars will be posted to our LinkedIn page.

You can follow us here.

EduQa Recertification

Last month we were recertified with EduQa, the 'Swiss Quality Certificate for Adult Continuing Education Institutions'.

This certification is important in assuring you that you will receive quality teaching and services when you partner with us.

LinkedIn Milestone

February saw us reach 2000 followers on LinkedIn!

Did we do a celebratory dance? Of course we did!

We would like to thank everyone who follows our page. Connecting and networking is a big part of what we do at SE-Training - this is what inspires us to improve and grow.

To mark this milestone we gifted the 2000th follower with one of our favourite books "Thinking in Systems" by Donella Meadows.

New Additions

We pride ourselves on offering a diverse selection of learning opportunities, partnering with industry experts to bring you interesting, relevant and informative courses and webinars.

We would like to make you aware of some of our upcoming recent additions:

COURSES

- Systems Architecting - Intermediate Level
- Design for Security
- Design for Privacy
- Polarion Basics

[Visit Website](#)

WEBINARS

- Integrating Privacy and Security in the beginning stages of IT Design and Development.

Visit our LinkedIn page to view and register for all upcoming free webinars!

Meet our new trainers

And the theme of new continues! We are thrilled to introduce you to Hakan Hasserbetci and Stephan Marwedel who have recently joined the SE-T team..

STEPHAN MARWEDEL

[Upcoming webinars](#)

[Upcoming courses](#)

Stephan works as a product security engineer at Airbus commercial aircraft. In his work, he brings together diverse engineering disciplines, such as hardware and software engineering, mechanical engineering, safety and reliability and cyber security aiming at creating safe and secure solutions. Stephan has more than 30 years of experience as a software and systems engineer in diverse areas, such as chip design, secure networking, health care, online banking and logistics.

He spent more than half of his professional life at Airbus commercial aircraft working as a systems engineer on aircraft communication systems and as an product security engineer on communication and recording systems as well as landing gear systems. He is actively involved in developing security standards by participating in international working groups at EUROCAE, AEEC and SAE.

HAKAN HASSERBETCI

[Upcoming webinars](#)

[Upcoming courses](#)

Hakan acts as a Data Protection Officer in Path Duesseldorf GmbH and manages international Data Privacy projects. He has experience implementing Codes of Conduct of GDPR across diverse organizations. He actively trains data controllers and data processors according to GDPR.

In Hakan's 20 year+ experience he has worked across ICT, Automotive, Packaging Corrugated and Textile industries and acted as: -

Director in Sales & Marketing, Business Development & Global Key Accounts & Channel Alliances in Mobile Network Operators. • Project manager in Data Protection/Privacy & Cyber Security in Automotive, Medical, SW Houses, Distribution. • Project manager in CRM & e-commerce & Sw. Development in SMEs. • Trainer in GDPR and DPO Practices. • DPO in Data Privacy and Compliancy Projects

Conferences

SE-Training has once again sponsored the SESE Tour!

SESE Tour 9 - 11 May 2022

The INCOSE Southern European Systems Engineering Tour 2022 took place as a hybrid event - with participants having the option to attend in person and remotely. As well as sponsoring this event, we were lucky enough to go to Italy on day 2 and soak up the atmosphere in the beautiful Lago d'Orta and watch our presenter Marco Di Maio give a talk on *Climate Change*.

Representing us on the day was Blaise Nyang who set up a stand and introduced visitors to our courses and services.. On day 1 and 3 we attended virtually and enjoyed talks by two of our other presenters Niels Malotaux and Hakan Hasserbetci.

To read more about the tour, click [here](#)

Upcoming Conferences

SWISSED

SWISSED22 | 12 September 2022 | Zürich

We admit we have a soft spot for SWISSED! Run by our friends at The Swiss Society of Systems Engineering (SSSE) it takes place in our hometown of Zürich at a lovely lakeside venue. We will once again be sponsoring and attending this unique event which brings together SE enthusiasts from all over the world.

This year's SWISSED will run under the theme: From Design to Reality - Walking up the "V".

Applications for presentations are currently still open so if you have some expertise, or a project or topic you would like to discuss and share with the SE community, why not apply?

Click [here](#) to apply (deadline 18 June 2022).

SPACETECH | 15 - 17 November 2022 | Bremen, Germany

The 5th edition of Europe's largest B2B event for the aerospace industry takes place in Bremen, Germany. We exhibited here last year and had a blast! (see what we did there?) and we will be doing the same this year.

Spacetechn is a fantastic opportunity to network, showcase your business and discover what's happening in the industry. We suggest you get this one in your diary.

Attendance is free. Click to register [here](#).

Course & Webinar Calendar

Courses

Design for Security

21 - 22 June

Presented by: Stephan Marwedel

Design for Privacy

23 - 24 June

Presented by: Hakan Hasserbetci

Fundamentals of System and Product Safety

27 - 28 June

Presented by: Richard Maguire |
Jim Mateer

Systems Reliability

14 September & 05 October

Presented by: Seb Klaves

Self & Social Competence for Engineers

22 - 23 September

Presented by: Sandra Roth

SE Advanced

26 - 30 September

Presented by: Mike Johnson | Seb Klaves | Marco Di Maio | Sandra Roth

Design Thinking & Lean Innovation Introduction

27 - 28 September

Presented by: Patrick Link

[Click to view all courses](#)

Webinars

Soft Skills for effective engineers Part 1, Self Responsibility

09 June

Presented by: Sandra Roth

Overview of Strategies for Implementing Systems Engineering

10 June

Presented by: Mike Johnson | Seb Klaves

Integrating Privacy and Security in the beginning stages of IT Design and Development

22 June

Presented by: Stephan Marwedel | Hakan Hasserbetci

Problem Solving in SE

30 June

Presented by: Mike Johnson

The Objective Engineer

07 July

Presented by: Mike Johnson

Soft Skills for effective engineers Part 2, Communication

25 August

Presented by: Sandra Roth

Soft Skills for effective engineers Part 3, Psychological Safety

08 September

Presented by: Sandra Roth
